(Wholesale/End-User)

From a small shop to an international award-winning enterprise, BMS is 100% Canadian owned and operated, proudly offering the very best in quality and service for the ever-evolving adult novelty market. Steve Bannister, founder and CEO, has had a long-standing history in the industry beginning in 1983 when he opened a small retail store in Toronto, Canada.

Identifying a gap in the Canadian market, Steve branched into wholesale in 1988 bringing in products from across the world. Years of experience in the industry led Steve to form BMS Factory, focusing on creating and manufacturing adult novelties with the highest standards.

Since its founding in 2005, BMS Factory has worked hard to establish itself as a leading manufacturer by developing the trusted and time-tested technology, PowerBullet®.

Starting as a basic but extremely powerful vibrating bullet, it has evolved into the strongest vibration technology on the market, and is a recognized brand used in many award-winning products across the industry. This includes the Swan brand, which revolutionized the industry by introducing the world's first virtually seamless silicone vibrator collection encompassing Elegance, Simplicity and Power.

As a company that started as a simple idea, BMS is now a worldwide entity with 11 stores, a massive warehouse in Toronto, and a factory in China bringing you excellence from our experience.

From everyone at BMS, we want to thank you for the last 33 years and look forward to many more.

**DIABLO
INFERNO™**

566612

Diablo Inferno (PowerBullet® Included)

The Diablo Inferno Ring will help you take your wicked fantasies to a whole new level. Sinfully sexy vibrations reverberate through it, concentrating in its horns and tongue. This horny devil is waterproof and won't miss a spot! So let your partner slide it on, lay back and let it take you to the dark side!

As quoted by AVN Novelty Jan/Feb 2008:

"This cock ring is sure to grab attention on the shelves in your stores. Have one out of the box so customers can really get an idea of what it looks like when the devil's horns and tongue vibrate. The thick jelly ring is stretchable enough that those who are new to cock rings will be able to slip it on with ease, but its tight grip will be a hit with cock-ring enthusiasts. It features a 3-Speed PowerBullet® that slips through the head and ribbed bumps to give added stimulation to the wearer's partner. It's a must-have for any cock-ring collection!"

**Diabolic™
ring**

56712

Diabolic Ring (PowerBullet® Included)

The Diabolic Ring is the brother of the Diablo, with a new streamlined and contoured design to better fit between two hot bodies. Using the infamous 3-Speed PowerBullet® as the source of the vibration, the bullet is inserted from the top instead of the side for deeper vibrations throughout the ring and head. The Diabolic features horns and goatee to stimulate the full genital area, magnetic beads in the ring to promote increased blood flow and power nodules on the top of the head to stimulate the clitoris.

The Diabolic Ring is made with a Phthalate Free material that is soft yet firm for a comfortable hold and the entire product is waterproof for hot fun in the shower.
