ST TROPEZ

Introducing St. Tropez: your travel guide to Blissful Tranquility in a breathtaking turquoise hue inspired by the sun-kissed shores of the Mediterranean. Featuring sensually soft silicone, incremental speed control, and a versatile range of 20 functions, this dual body massager ensures a tailored experience with endless possibilities. St. Tropez beckons you to discover your preferred function and preserve it for future adventures using Wonderlust's innovative Favourite Function Memory feature. Let St. Tropez transport you to a state of pure serenity, wherever you may be.

WONDERLUST™

St. Tropez Features

Super Soft Silicone

Water Resistant

Powered by:

20 Functions
Incremental Speed Control
Independent Vibrations
Favourite Function Memory
Travel Lock

USB Rechargeable

What is Favourite Function Memory?

What makes the Wonderlust St. Tropez a truly unique product is its Favourite Function Memory feature. Spend less time cycling through all 20 functions and spend more time enjoying your intimate adventure. Simply press and hold both buttons at once for 2 seconds, the vibrator will pause momentarily, and the buttons will blink. After 2 quick vibrations, the current function will be confirmed and saved. When turned on again, it will automatically start on your favourite function.
