palmpower®

ULTIMATE POWER IN THE PALM OF YOUR HAND

PalmPower® was created with two simple yet very crucial elements in mind: **size** and **power**. With well-known brands dominating the world of wands, PalmPower set new standards by being the first compact massager of its kind. The birth of the original PalmPower® plug-in sent shockwaves through the industry for being compact enough for one's convenience, while limiting vibrations in the handle.

While the original PalmPower® plug-in remains just as popular to this day, the brand has evolved greatly throughout the years, bringing the world what have now become classics in the PalmPower® line:

The Recharge: Totally rechargeable and convenient with minimal vibration in the handle at full speed. A must-have for every retailer and distributor in the industry because of its power.

The Extreme: The instant-selling largest and most powerful of the collection that takes after the recharge at an ultimate size.

The Pocket: The power-packed miniature and travel-friendly version of the rechargeable model with just as much power for pleasure on the go!

The Micro: A micro keychain that's just simply fun!

The Plug&Play: A wand with nothing inside but a motor. The power bank allows you to travel stress-free.

PalmPower® continues to set the bar for massagers industry-wide and is only getting more powerful from here!

THE EVOLUTION OF PALMPOWER®
